RYDAY IS COVERED

EVERYWHERE YOU WORK WE'VE GOT YOU COVERED

Regardless of your workload, we have your truck covered in style and utility. Distinct features and adherence to your truck's size and performance, we stay true to both form and function by providing you with easy access to your tools combined with secure storage options.

Work in style with A.R.E. truck caps and accessories. Outfit your truck with a quality built cap designed to last the life of your truck.

A.R.E. 
Outfit for Work™

Get to Work with a DELUXE COMMERCIAL

The Right Tool for Your Truck

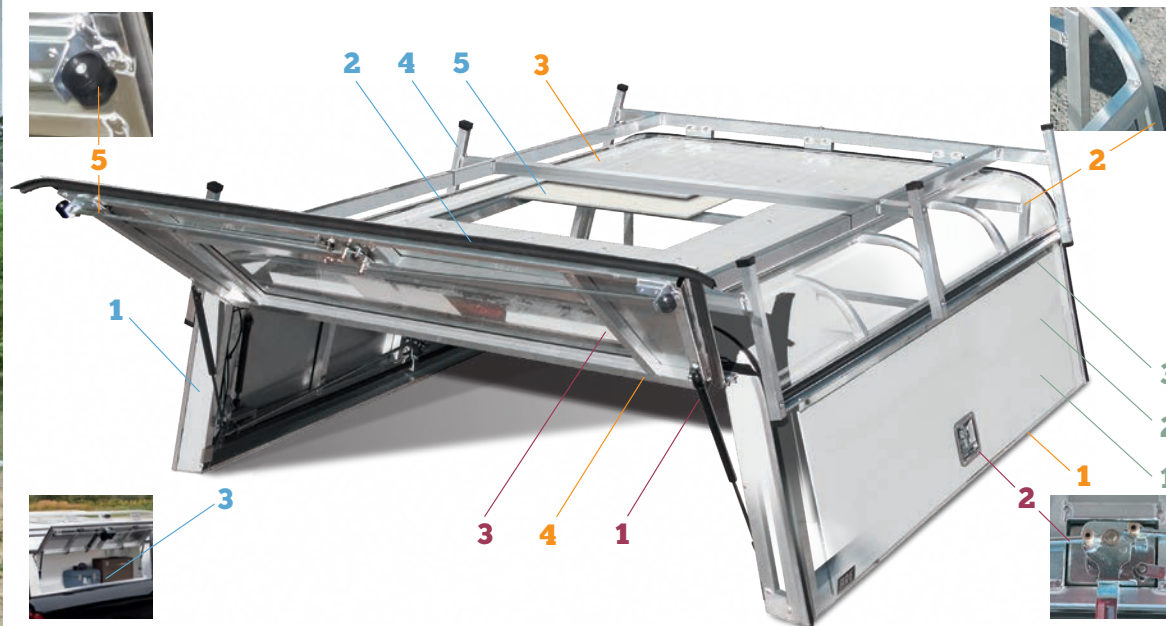

A.R.E.'s rugged welded frame construction offers years of durable service, no matter what the weather or job. Each unit has weather-sealed doors with gas props, heavy-duty hinges, and automotive-style locks to protect your valuables.

Outfitting Your Truck for Life

When it comes to designing, producing and delivering commercial grade work caps for pickups, A.R.E. is top shelf! The A.R.E. DCU Series™ offers more strength, durability and work life than any other truck cap built today. The A.R.E. DCU Series™ does the job without excessive weight that reduces your payload and your fuel economy.

UNIT

Commercial Strength. Automotive Quality.

Options

- 1 Height** – A.R.E. has four standard heights plus three wedge heights to meet your specific capacity needs.
- 2 Rear Doors** – A.R.E. offers four door styles for your rear access needs.
- 3 Side Toolboxes** – Toolboxes are made of .036 galvanized steel with a baked white coat. The bins can be customized to include dividers and fold-down shelves.
- 4 Roof Racks** – A.R.E. offers many different racks to meet your specific hauling needs. Extra cross bar supports are available.
- 5 Vapor Barrier Insulation** – Optional acrylic fabric liner provides protection from condensation.

Structure

- 1 Baserails** – 0.80" thick T6 aluminum baserails with MIG welded corners provide a strong foundation.
- 2 Structural Tubing** – .050" thick T6 aluminum tubing framework with TIG welded joints provides strength and support with minimal weight.
- 3 Exterior Skin** – Heavy-duty .035" thick aluminum exterior skin provides a superior structure.
- 4 Door Frames** – A.R.E. builds all styles of doors with the same .050" thick wall tubing used in the body frame. All TIG welded joints and continuous hinges assure alignment and durability.
- 5 NEW Roller Rods** – One-hand operation to provide easy access and improved seal.

Finish

- 1 Body Colors** – A.R.E. offers our DCU Series™ in white, Ford white, light gray or black. The color is baked enamel finish applied to the aluminum skin at the mill. The color is not meant to provide a match to any OEM truck paint, but is intended to accent the truck's appearance without the cost of custom painting.
- 2 Custom Axalta® Paint Finishes** – Optional two-stage ChromaPremier® paint is offered in any OEM or fleet color code formula. Applied in our downdraft booths and baked on for durability.
- 3 Trims** – Edge trims are offered in black or white.

Components

- 1 Gas Props** – Our gas props are set to the optimal pressure to assist in lifting and closing each cap door.
- 2 Latches and Locks** – All doors are equipped with Strattec® BOLT™ One-Key Technology. The folding T-grip latch handle is durable and offers top security. The cam action deadbolt lock rods with the center point lock provide lifelong trouble-free operation. All latches and locks have 500 hours non-corrosion finish.
- 3 Windows** – A.R.E. offers radius dark tinted tempered safety glass in all doors. Optional heavy aluminum mesh security screens deter unwanted entry.

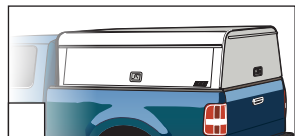

Build the DCU Series™ That is Perfect for Your Needs

Follow these 11 steps and
check options clearly. ☒

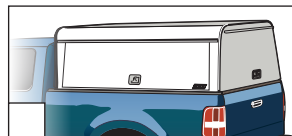

Consult your local A.R.E. dealer for more details or with
questions regarding any of the options shown here.

1 Choose a Cap Height

HD Series™ Warranty

A.R.E. warrants to you, the original retail purchaser of an A.R.E. HD Series™, that the body will be structurally free from defects in material and workmanship for as long as you own your cap and the original vehicle. The body includes the fiberglass shell and mounting rails only. A.R.E. warrants to you, the original purchaser, for as long as you own your cap that the exterior paint will not abnormally fade or peel due to material or workmanship defect faster than the original pickup it was installed on by an authorized A.R.E. retail dealer.

The internal skeleton frame will be warranted for three (3) years from your retail date of purchase against failure due to defects in material and workmanship.

All other hardware will be covered under standard A.R.E. fiberglass truck cap warranties.

The A.R.E. HD Series™ has been designed to carry 550 lbs evenly distributed on the HD Series™ roof rack and 200 lbs evenly distributed in each toolbox.

CAUTION: The weight of this product and the weight of the cargo it was designed to carry may be more than your truck was designed to carry on the bed rails. Please consult your truck manufacturer.

WARNING: The use of this product may raise your vehicle's center of gravity, especially when loaded. Higher center of gravity is known to increase the chance of vehicle rollover.

Trust the Leader

When you purchase our cap for your truck, you have over 600 North American A.R.E. dealerships ready to serve you. Major leasing companies rely on A.R.E. to provide caps and service to thousands of vehicles they own nationwide. You deserve the same peace of mind that they enjoy. See your local authorized A.R.E. dealer today to order the workcap that meets your needs.

ToolMaster™

ToolMaster™

Contractor-Grade Durability

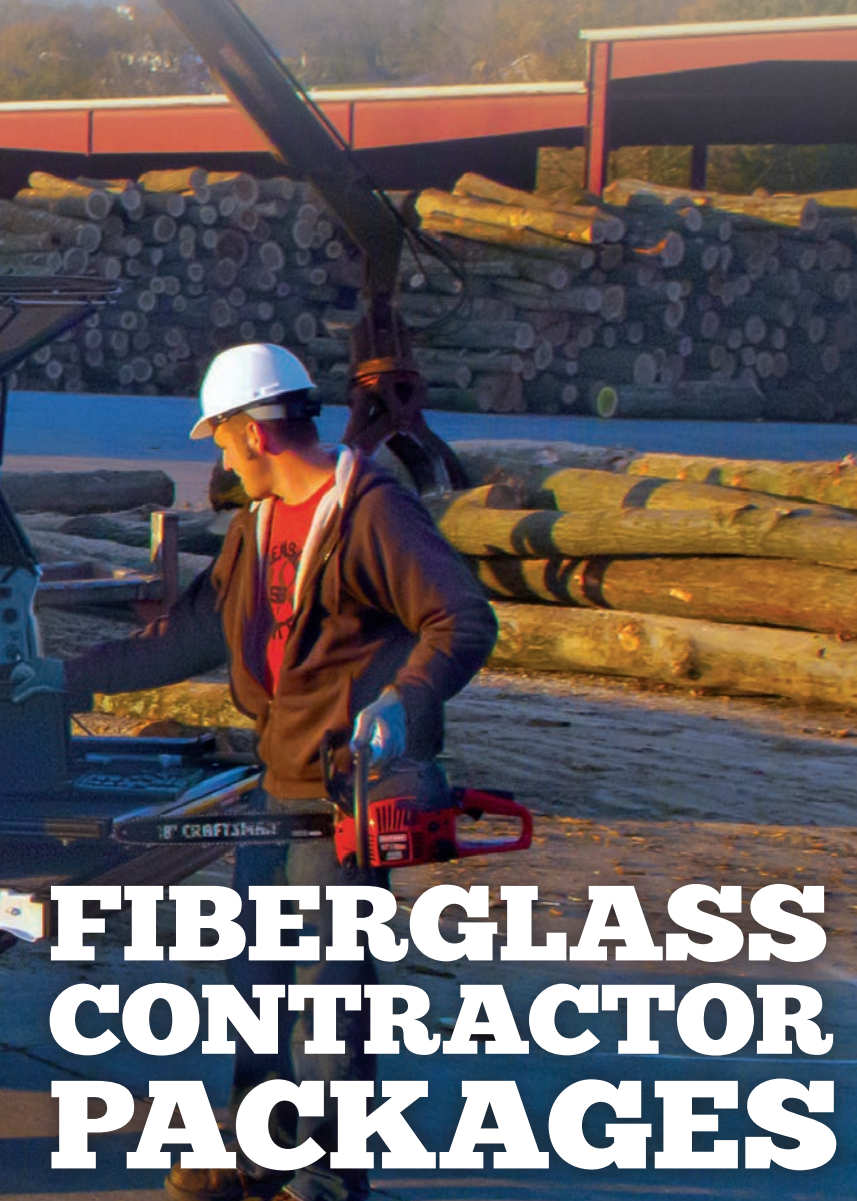

For years, A.R.E. has manufactured high-quality fiberglass caps and tonneau covers as well as rugged aluminum units for commercial use. With our Contractor packages, you can have the appearance and style benefits of our fiberglass caps and tonneau covers with the security and functionality of our commercial units.

ToolMaster™ Warranty

A.R.E. warrants to the original purchaser of ToolMaster™ truck caps that they are free from defects in structure, materials and workmanship for lifetime from the date of purchase from an authorized A.R.E. dealership. See the dealership for a copy of the full warranty statement.

Trust the Leader

When you purchase our cap for your truck, you have over 600 North American A.R.E. dealerships ready to serve you. Major leasing companies rely on A.R.E. to provide caps and service to thousands of vehicles they own nationwide. You deserve the same peace of mind that they enjoy. See your local authorized A.R.E. dealer today to order the workcap that meets your needs.

3DL Series™

Unparalleled Access

A.R.E.'s Commercial Division is expanding its product line with the new 3DL Series™. Available for many of today's trucks. This new tonneau cover exemplifies another innovative design from A.R.E. that makes loading and unloading easier for service workers. The 3DL Series™ turns the bed of the truck into an organized and readily accessible tool container that keeps dust and other elements out.

Standard Features

- Two doors on each side
- The entire cover opens effortlessly from the rear of the truck using a hinge system at the front of the cover
- New roller rods for side doors allow for one-hand operation to provide easy access and improved seal
- Painted to match (automotive base-coat/clear-coat)
- Design offers the driver excellent rear visibility from the cab of the truck
- Designed to keep products secure and out of sight
- Patented Palm Handle (black)

Optional J-Box Toolbox

LED Rope Light Option Activated
When Any Door Opens

Remote Keyless Entry Option

Optional Features

- Remote keyless entry
- LED strip lighting technology to illuminate the bed
- J-box toolboxes

Specifications:

- Adds over 4" above the truck bed rail of additional storage space

LSII Series™

#1 Fiberglass Tonneau

The LSII Series™ offers truck specific styling, premium components and a unique lift assist system for user friendly opening and closing. With a sleek, clean appearance, a proven lock/latch system, a dry and out-of-sight storage area for tools and equipment and better rear visibility when backing up, this industry-leading tonneau cover is a best seller, and for good reason.

The LSII Series™ gives technicians and supervisors who live in gated communities with vehicle restrictions the ability to take their work trucks home.

The LSII Series™ allows a pickup to get better gas mileage than it would with an open bed.

Low Profile Composite Clamp

Height Adjusters Prevent Unnecessary Paint Wear

Modular Baseraill with Weather-Resistant Seal

Cargo Management Solutions

The Easiest Way to Load and Unload

Say goodbye to the aggravation of a normal truck bed. With a CargoGlide® bed slide, you can stop crawling in the back of your truck or van every time you need to reach your gear. So stop scuffing your knees and breaking your back! Install a CargoGlide® in your truck and get your gear and materials out where you need them!

CargoGlide offers models that hold 1,000 lbs., 1,500 lbs. or even 2,200 lbs. Their full extension models slide out of the bed 100%, so you can eliminate the risk of injury for you or your employees.

Combined with an A.R.E. Truck Cap or Cover, the CargoGlide allows you to get maximum use out of your truck bed!

Choose Your CargoGlide®

CG1000 1000 lbs. capacity

75% of the cargo tray length slides out on short bed trucks and 70% on long beds. Sturdy steel frame construction. Real plywood deck with a laminated surface for strength and durability. 6 bearings total, 2 full complement permanently sealed ball bearings, 2 side thrust and 2 powerful needle bearings provide dependable lasting support for the cargo you haul in your CargoGlide.

Industrial 4" high extruded 6061-T6 thick anodized aluminum side rails with a slot style infinitely adjustable tie down track around all 3 sides, and includes 4 adjustable marine-grade tie down eyebolts to make securing cargo easy and versatile.

CG1500XL 1500 lbs. capacity

100% of the cargo tray length slides out for total access to your cargo. Real plywood deck with a laminated surface for strength and durability. 36 bearings total, 4 full complement double row, 16 single row permanently full complement sealed ball bearings and 2 cam follower sealed needle bearings provide dependable lasting support for the cargo you haul in your CargoGlide. This slide also has 14 more sealed side thrust bearings that make it slide easier when used on uneven ground.

Powder coated industrial 4" high extruded 6061-T6 aluminum side rails with a slot style infinitely adjustable tie down track around all 3 sides, and includes 4 adjustable marine-grade tie down eyebolts to make securing cargo easy and versatile. 8" high side extensions on the first 4' of the slide at the cab end helps contain more cargo.

CG1500 1500 lbs. capacity

75% of the cargo tray length slides out on short bed trucks and 70% on long bed trucks. Sturdy steel frame construction. Real plywood deck with a laminated surface for strength and durability. 8 bearings total, 6 full complement permanently sealed ball bearings and 2 side thrust bearings provide dependable lasting support for the cargo you haul in your CargoGlide.

Industrial 4" high extruded 6061-T6 thick anodized aluminum side rails with a slot style infinitely adjustable tie down track around all 3 sides, and includes 4 adjustable marine-grade tie down eyebolts to make securing cargo easy and versatile.

CG2200HD 2200 lbs. capacity

75% of the cargo tray length slides out on short bed trucks and 70% on long beds. Real plywood deck with a laminated surface for strength and durability. 10 bearings total, 4 full complement double row, 6 single row permanently sealed ball bearings provide dependable lasting support for the cargo you haul in your CargoGlide.

Industrial 4" high extruded 6061-T6 thick anodized aluminum side rails with a slot style infinitely adjustable tie down track around all 3 sides, and includes 4 adjustable marine-grade tie down eyebolts to make securing cargo easy and versatile. 8" high side extensions on the first 4' of the slide at the cab end, helps contain more cargo.

CG2200XL 2200 lbs. capacity

100% of the cargo tray length slides out for total access to your cargo. Real plywood deck with a laminated surface for strength and durability. 22 bearings total, 4 full complement double row, 16 single row permanently sealed ball bearings and 2 cam follower sealed needle bearings provide dependable lasting support for the cargo you haul in your CargoGlide.

Powder coated industrial 4" high extruded 6061-T6 aluminum side rails with a slot style infinitely adjustable tie down track around all 3 sides, and includes 4 adjustable marine-grade tie down eyebolts to make securing cargo easy and versatile. 8" high side extensions on the first 4' of the slide at the cab end, helps contain more cargo.

Choose the Pickup Vault™

Pickup Vault™
2 lockable drawers
